Do you know where the milk you drink comes from? Do you know only happy cows make good quality milk? Great Milk would love to share our knowledge about milk and help you get the fresh milk from the best dairy farms. Taiwan is quite lucky to have farms that are able to produce a lot of good milk.

However, around three-quarters of the dairy market is controlled by big companies. Sadly, many small dairy farmers are forced to sell their milk to them at very low prices. It is quite hard for them to make a living that way, so they need other ways of selling their milk. Great Milk hopes to change that by building a bridge between you and the small dairy farmers.

Go to our website, www.greatmilk.com.tw, to meet our nice hard-working farmers. When you are there, you can easily place an order for their great fresh milk. They also share making milk with you and know how they work.
