

南安國中國際交流

心靈的藍色家園：南安國中，在南方澳的潮汐間，我們為孩子撐起一片夢想的海。您是否曾想過，校園可以是一扇窗，推開便能看見太平洋的旭日？您是否希望孩子的教室，就在那被珊瑚環抱的豆腐岬旁？宜蘭縣立南安國中，這所位在半山腰、俯瞰著情人灣的藍色學府，正在尋找願意與山海共鳴的年輕靈魂。

在這裡，我們不只教授課本上的文字。我們帶著孩子潛入湛藍的海水，利用珊瑚健康色卡守護這片「水中的熱帶雨林」；我們在科技教室裡，用 APP 構築未來的藍圖；我們在旗魚陣的鼓聲中，找回漁村勇者的靈魂。這裡有「南風」的溫暖，老師們用讚美作為養分，呵護每一顆「最亮的星」。

我們承諾，給孩子一個「愈在地、愈國際」的舞台。無論是參與 OSS 海洋科學探究，還是與日本石垣市的友校交流，孩子學到的是解決問題的「領導力」與關懷土地的「溫度」。

A Blue Sanctuary for the Soul: Nan-An Junior High School

Amidst the tides of Nanfang'ao, we hold up an ocean of dreams for our children.

Have you ever imagined a campus as a window—one that opens to reveal the sunrise over the Pacific? Do you wish for your child's classroom to be nestled right beside Tofu Cape, embraced by coral reefs?

Yilan County Nan-An Junior High School, an azure academy perched on the hillside overlooking Lover's Bay, is looking for young souls willing to resonate with the mountains and the sea.

Here, we teach more than just words in textbooks:

- We guide children into the deep blue waters, using Coral Health Charts to safeguard this "Underwater Rainforest."
- In our technology classrooms, we use Apps to construct blueprints for the future.
- Amidst the drumbeats of the Swordfish Array, we reclaim the spirit of the fishing village warrior.

Here, there is the warmth of the "Southern Wind." Our teachers use praise as nourishment to cherish every "brightest star."

We promise to provide children with a stage where "the more local, the more international" rings true. Whether participating in the OSS Marine Science Inquiry or exchanging with sister schools in Ishigaki City, Japan, what children gain is the "leadership" to solve problems and the "warmth" of caring for their land.
